

Make Prairie Engineers a part of your journey!

Do you consistently provide your clients with high quality deliverables, exceptional service, and tailor-made solutions? Are you a go-getter looking for a company that not only supports their clients but their internal team too? Our company culture is people-focused with a can do, responsive attitude that values your contributions and willingness to problem solve. As a progressive and rapidly growing business, Prairie Engineers can present you with a wide range of challenging projects, an opportunity to work within a highly functional team, and a leadership role that you can help define. We take pride in being a continually evolving, [award winning](#) company that values a fresh approach and non-traditional roles. Our engineers and staff are supported by new technology and professional development opportunities. As our industry evolves, we're able to move quickly, not stifled by "the way it's always been done."

We are searching for a candidate with planning and design experience for federal or state government infrastructure projects. This position will manage simultaneous projects and multi-discipline teams, lead technical design phases, and coordinate with governmental agency clients.

We offer a flexible work schedule, work from home opportunities, and career growth plans to meet your individual needs in addition to a competitive salary and benefits. Any of our offices can accommodate your full-time or part-time schedule. If this sounds appealing to you – let's talk!

What you will do:

Manage and perform the planning and design of various infrastructure projects

Take ownership of tasks with dependable performance and positive attitude

Focus on client satisfaction and project delivery with attention to detail and deadlines

Prepare and review scopes of work, schedules, fee proposals, budgets and responses to RFQs

Develop and maintain client relationships

Mentor and support the professional growth of junior staff

Participate in public meetings and prepare public involvement materials

What you will have:

Education: A Bachelor's degree in Civil Engineering

Experience: Minimum 5+ years' experience

Licensure: Illinois Professional Engineer (or can obtain through reciprocity)

Knowledge: Solid understanding of industry best practices, techniques, standards and specifications, and design software

Communication: Excellent verbal and written communication skills

Responsive: Communicates openly, proactively, and promptly

Teamwork: Ability to work both independently and as part of a team

Ideals: Professional, kind, respectful, with a strong work ethic

Can Do Attitude: Positively engages with challenges and facilitates problem solving

Prairie Engineers is an equal opportunity employer that recognizes the value of diversity. All qualified individuals will receive consideration for employment without regard to race, color, religion, age, sex (including gender identity, sexual orientation and pregnancy), national origin, disability, genetic information or any other legally protected status.

Potential candidates for this position should [fill out an application](#) found on our website prairieengineers.com and submit with cover letter and resume via e-mail to jobs@prairieengineers.com.
