

Entry-Level Civil Engineer

Start your career with Prairie Engineers, an award-winning firm!

Looking for a company that will help you grow your skills and reward your determination while working within an enthusiastic and inclusive environment? Are you ready to be a highly responsible, capable, and contributing member of a team, willing to utilize technology and think on your feet? You might be just who we're looking for, so let's talk!

As a progressive and growing business, Prairie Engineers offers you the ability to work on a wide range of challenging projects within a collaborative and highly functional team. We have ample opportunities for career growth and a diverse range of clients and projects. You will need to have a "can do" attitude and eagerness to learn. We will provide opportunities and guidance, so you can develop your skills and pursue the management or technical route that is most rewarding for you. This position includes both field and office assignments and will require occasional travel to locations throughout the U.S.

Give us your best and we'll give you ours! We offer a flexible work environment and career growth plans to meet your individual needs while providing a competitive salary and benefits. We will accommodate full-time schedules in most of our office locations.

What you will do:

Planning, design, and construction phase services for a variety of projects and client types.
Coordinate staff activities with surveyors, engineers, environmental scientists, and CADD technicians.

What we expect you to have:

Primary Interest: In water resources, transportation, or structural engineering
Education: A Bachelor's Degree in Civil Engineering from an ABET Accredited University
People Focused: Prioritize relationships and promote growth, development and inclusion
Can Do Attitude: Positively engage with challenges, focus on client service
Responsive: Communicate openly, proactively, and promptly
Travel: Willingness to travel within the United States to meet project requirements
Safety: A valid driver's license and a clean driving record
Licensure: Current licensure as an Engineer Intern or the ability to obtain within 6 months

What else can you add:

Software Experience: CADD/GIS Experience
More Experience: Previous experience or internships

Prairie Engineers is an equal opportunity employer that recognizes the value of diversity. All qualified individuals will receive consideration for employment without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other legally protected status.

Potential candidates for this position should **fill out an application** found at prairieengineers.com and submit with cover letter and resume via e-mail to jobs@prairieengineers.com.
