

Prairie Engineers is the place to be for MEP Engineers looking to grow and excel!

Stuck in a boring routine? Wanting to step up your position? Wondering if there might be something better out there?

Look for a new opportunity with award winning Prairie Engineers, a progressive and rapidly growing company, where you will be presented with a wide range of challenges and the ability to work with a collaborative and highly functional team to solve them. We are looking for a Mechanical Engineer with demonstrated experience in the planning, design, and construction administration of mechanical, electrical, plumbing, and fire protection systems for work primarily on federal and state government projects throughout the U.S.

Give us your best and we'll give you ours! We offer a flexible work environment and career growth plans to meet your individual needs while providing a competitive salary and benefits. We will accommodate this position as a full-time or part-time schedule in any of our offices. If you're looking for new and more challenging puzzles to solve – come talk with us!

What you will do:

Plan, design, and construction administration of HVAC, chilled/hot water, plumbing, and fire protection systems

Oversee project construction from start through completion

Maintain focus on timely project delivery and superior client service with attention to detail and deadlines

What we expect:

Education: A Bachelor's degree in Mechanical Engineering

Experience: 5 years' previous engineering experience

Licensure: Current Professional Engineer in any State or ability to attain within the first 6 months of employment

Software: Proficiency with AutoCAD, Revit, and Microsoft Office Suite

Communication: Excellent verbal and written communication skills

Responsive: Communicates openly, proactively, and promptly

Teamwork: Ability to work both independently and as part of a team

Ideals: Professional, respectful, with a strong work ethic

Can Do Attitude: Positively engages with challenges and facilitates problem solving

Prairie Engineers is an equal opportunity employer that recognizes the value of diversity. All qualified individuals will receive consideration for employment without regard to race, color, religion, age, sex (including gender identity, sexual orientation and pregnancy), national origin, disability, genetic information or any other legally protected status.

Potential candidates for this position should **fill out an application** found on our website prairieengineers.com and submit with cover letter and resume via e-mail to jobs@prairieengineers.com.
