Why Work Here?

In-House Training!

“State of the art technology * Clean modern facility * Friendly team-oriented workplace”

Seeking basic level CNC Milling operators for 2nd shift positions. Preferred candidates will have at least 1-2 years' production experience operating CNC milling equipment. Hourly wages based upon experience.

We offer a 10% shift premium for our 2nd shift employees, medical & dental insurance benefits, 9 paid holidays, 401K retirement plan, tuition reimbursement and other benefits. We are seeking people with aptitude and drive who truly want to pursue a career in the challenging world of precision machining.

Qualified candidates are required to have:

- Documentation to legally work in the USA.
- High school level education or GED equivalent
- Must be able to communicate and follow instruction in English both verbal & written.

- Basic blueprint reading
- 1-2 years' operating experience on CNC milling machine preferred.
- Ability to use calipers, micrometers, and other inspection equipment.
- The agility to stand, stoop, bend, pick and accurately place parts throughout the shift.

Forward your resume including:

Name of each employer and the dates you were employed

- Shifts you worked at each company
- Type of CNC equipment operated, include manufacture & model
