Job Title:	Water Supply Field Supervisor - 6506
Closing Date:	When Filled
Salary:	\$43.17/hour
Job Type:	<input type="text"/>
Location:	<input type="text"/>
Department:	<input type="text"/>

Job Description:

The City of Naperville's Water Utility is currently seeking a Water Supply Field Supervisor to coordinate, monitor, and operate daily activities of the City of Naperville's Water Supply system. The Field Supervisor will coordinate work performed by outside contractors and assist the Water Supply Supervisor in the supervision of hourly employees as needed.

Responsibilities:

- Assists in the development, execution, and coordination of preventative maintenance program for Water Supply system.
- Operates, monitors, and directs crews responding to alarms in the water supply system using SCADA.
- Reviews and maintains accurate daily records for waterworks operations, equipment, water usage, water storage tank levels, and treatment chemical feed rates and chlorine residuals.
- Assigns and schedules required water supply sample testing and well operations.
- Maintains repair and maintenance records, along with documentation needed for all IEPA reports.
- Prepares work progress reports and assists in the preparation of monthly reports for regulatory agencies.
- Directs the daily work of water supply crews involved in the installation, maintenance, testing, and repair of equipment at the water supply and well sites.
- Schedules maintenance on building and grounds around well sites, pump stations & storage facilities, ground storage reservoirs, elevated storage tanks, and other structures.
- Monitors performance of the water supply system and related equipment.
- Manages chlorine inventory and places orders for chlorine gas.
- Plans and schedules mechanical and low/medium voltage electrical repair work on a variety of water supply and treatment equipment and instrument controls such as large capacity pumps, deep-well pumping equipment, programmable logic controllers (PLCs), supervisory control and data acquisition (SCADA) systems, pressure reducing/regulating valves (PRVs), chemical feeders, flow recorders, chlorine analyzers, emergency power generators, electric motors, and other water treatment equipment.
- Identifies needed repairs and advises on improvements.
- Work holiday and weekend standbys as required.
- Work all scheduled and non-scheduled overtime as assigned.
- Performs all other related duties as assigned.

Qualifications:

- A minimum of five years of experience in a related Water Supply field.
- A high school diploma or equivalent plus additional specialized training in relevant trades.
- Proficiency with Microsoft Office suite (Word, Excel, Outlook).
- A valid State of Illinois Class D driver's license.
- Preferred candidates will possess an Associate's or Bachelor's Degree in mechanical or electrical industrial technology or a related field, substantial work experience with SCADA technology and/or PLCs, knowledge of preventative maintenance programs and familiarity & familiarity with asset management concepts, 1-2 years of previous supervisory experience, and an IEPA Class "C" Water Operator Certification.
