ABM Operator

SUMMARY OF ROLE

*12 hour shift Rotating Schedule - Days 7am-7pm & Nights 7pm-7am

Visually inspects, removes, and packs bags systematically into boxes by performing the following duties to maximize safety, quality, and OEE.

KEY RESPONSIBILITIES:

As an at-will employer, SIG/Scholle IPN serves the right to add to or modify this list to the extent it deems necessary.

- Performs all work safely in accordance with personal and product safety rules.
- Inspects product for visual defects and complete inspection report on a periodic basis.
- Removes product from machine.
- Discards defective products, including scrapping bags.
- Packs all good products in designated manner, including basic use of the pack assist and auto pack equipment.
- Closes boxes and mini bins and implements correct aseptic procedures.
- Reads the product specification to correctly pack bags.
- Completes the hour-by-hour chart, Kaizen newspapers, and other Lean documentation.
- Basic use of other bag making auxiliary equipment, including (but not limited to) the Tap Applicator, Bag Separator, On-line combiner, and Manual Hose Applicator.
- Reports recurring defects/deficiencies with the product and/or machine to appropriate personnel and/or the shift management immediately.
- Works in cooperation to keep the machine stocked and running with fitments, and in ways that will help increase safety, quality, and OEE.
- Assists the department in different capacities if the machine is down.
- Keep assigned area clean and properly 5S'd according to established Lean and housekeeping expectations. The concept of 5S is to maintain a clean working area, remove all unnecessary items, and keep all necessary items in their place to ensure a safe and organized working area.
- Inspects materials, products, and containers at each step of packaging process.
- Participate in setups by removing spouts and dip strips from the ABM and staging boxes.

YOU BRING THESE SKILLS, EXPERIENCE & EDUCATION:

- EDUCATION:
 - High school diploma or G.E.D required.
