JOB TITLE

Regional Business Analyst

REQUISITION #

IL07022024RBA

COMPANY

eX² Technology

FSLA STATUS

Exempt

LOCATION

Naperville, IL

Looking for a new career opportunity with an innovative, technology-driven company? eX² Technology is seeking a highly skilled individual to fill our available Regional Business Analyst position. As a Regional Business Analyst, you will support the operational processes in executing telecommunications design-build construction and systems integration projects.

In return, we offer competitive pay with an excellent benefit package including paid time off, company matching 401(k) plans and medical, dental, vision and life insurance options along with professional development and career advancement opportunities in a growing technology-driven industry.

WHAT DOES A TYPICAL DAY LOOK LIKE?

- Drive informed decision making through comprehensive financial analysis and through collaboration with the Director of Operations and the Controller to provide actionable insights to support the decision-making process, ensuring effective communications across the teams.
- Prepare relevant financial schedules to provide insights into financial performance and variances against targets and to support monthly expense reporting and accrual submissions.
- Set-up project and change order budgets in accounting system.
- Must have detailed understanding of contractual requirements and the contracting process, including terms and conditions to ensure compliance with all laws, regulations.
- Ensure project specific tax planning and reporting is completed accurately.
- Manage annual budgeting efforts for projects.

JOB REQUIREMENTS

Education

- A Bachelor's degree in finance or accounting.

Experience

- The ideal candidate should have 5 years of accounting or financial analysis experience ideally in the telecommunications, critical infrastructure or construction industries.
- An acceptable equivalent combination of education and experience will also be considered

Skills/Knowledge/Abilities

- Strong leadership, communication and customer relation skills.
- Detailed knowledge of operations accounting, budgeting, forecasting, contracts, and financial reporting is required.
- Thorough knowledge of contracting process, including contract terms and conditions, scopes of work and pricing concepts.
