Looking for a new career opportunity with an innovative, technology-driven company? Vivacity Infrastructure Group is seeking a highly skilled individual to fill our available Director of Information Technology position. As a Director of Information Technology, you will support the operational processes for executing telecommunications design-build construction and systems integration projects.

In return, we offer competitive pay with an excellent benefit package including paid time off, company matching 401(k) plans and medical, dental, vision and life insurance options along with professional development and career advancement opportunities in a growing technology-driven industry.

WHAT DOES A TYPICAL DAY LOOK LIKE?

- Lead IT strategy, systems architecture and support related to Business Transformation projects.
- Lead a team responsible for the planning, coordination, management and execution of multiple concurrent, technical, cross-organizational projects/programs for a mid-sized, growing organization.
- Manage overall administration, adherence to timeline budget and scope, risk, project documentation and management reporting
- Identify technology needs and make recommendations to business decision-makers.
- Evaluate the company's adherence to technology requirements for security.
- Maintain the company's hardware and software programs.

JOB REQUIREMENTS

Education

- A Bachelor's Degree in Information Technology or related technology field

Experience

- The ideal candidate should have 5+ years of leading an IT organization, ideally in telecommunications, critical infrastructure or construction industries.

Skills/Knowledge/Abilities

- Proven experience as an IT director or similar role

- Experience in analysis, implementation and evaluation of IT systems and their specifications
- Sound understanding of computer systems (hardware/software), networks etc.
- Experience in developing and managing an information technology budget
