

CNC Lathe Operator & General Machinist

at DMS, Inc. in Lake Zurich, Illinois, United States

Job Title: CNC Lathe Operator

Job Description

The CNC Lathe Operator is responsible for operating and maintaining CNC single turret lathes to produce high-quality parts according to blueprint specifications. This role demands a strong attention to detail, the ability to read and interpret drawings, basic understanding of Geometric Dimensioning and Tolerancing (GD&T), and a commitment to safety and precision in a manufacturing environment.

Responsibilities

- + Program and operate single turret CNC lathe machines, some with live tooling capabilities.
- + Inspect parts using precision measuring tools such as micrometers, pin gages, bore gages, and plug gages.
- + Perform manual deburring of parts during the machining process.
- + Make offsets to tooling.
- + Identify and resolve machining issues, such as tool wear, to maintain required dimensions.
- + Accurately record production data.
- + Follow all safety protocols and ensure the workspace is clean and organized.

Essential Skills

- + Ability to read and interpret blueprints.
- + Understanding of Geometric Dimensioning and Tolerancing (GD&T).
- + Familiarity with CNC lathes and measuring equipment.
- + Strong focus on accuracy and quality.
- + Strong communication skills.

Additional Skills & Qualifications

- + Experience with CNC lathe operation.
- + Experience in machine operation and blueprint reading.
