

- **General Information**

- o Job Title:
Analytical Chemist - McCrone Associates
- o Location:
850 Pasquinelli Drive, Westmont, IL 60559-5539, United States
- o Employee Type:
Full Time - Exempt
- o Job Category:
Scientist
- o Manage Others:
No

- **Description**

McCrone Associates, Inc., a Chicago-area analytical laboratory, seeks a highly motivated, detail-oriented, organic or analytical chemist with experience in investigative, non-routine microanalysis and identification of unknown materials. McCrone Associates specializes in the analysis of small particulates to help clients solve their materials analysis and contamination problems. This position requires project management, the ability to clearly communicate scientific results to clients, and applied experience using a variety of chemical analysis and microanalysis techniques, such as light microscopy, infrared (IR) spectroscopy, Raman spectroscopy, gas and liquid chromatography, and mass spectrometry.

- **Requirements**

The ideal candidate will have a master's or doctorate degree (or equivalent work experience) in analytical or organic chemistry or materials science with five or more years of relevant, hands-on laboratory experience in spectroscopy and/or chromatography for materials analysis and problem solving. An expertise in the interpretation of IR spectra including mixtures is highly desired. Excellent oral and written communications skills and strong software skills with instrument operation and Microsoft Office applications are essential. McCrone Associates fosters a collaborative environment to solve analytical problems so strong teamwork and leadership skills are essential to managing project flow and efficiency; however, this position does not involve the direct management of personnel. Experience working in cGMP and ISO 17025 regulated laboratories is desired.

- **Summary**

- o This is a full-time, in-person analytical laboratory position in Westmont, Illinois. Hybrid and/or remote work arrangements are not available for this laboratory-based position.
- o This position is eligible for annual, performance-based salary and bonus review.
- o Available benefits include, medical, dental and vision insurances, disability and life insurances, 401(k) retirement plan, and paid sick and vacation leave.

- o The applicant selected must be a U.S. Citizen; will be subject to a pre-employment background check and must be eligible for a government security clearance.
- o McCrone Associates, Inc., an internationally recognized world leader in microscopy, is focused on solving the most difficult materials and particle identification problems along with the day-to-day analysis needs of clinical laboratories, scientific researchers, business organizations, and government agencies worldwide.
- o The McCrone Group is an Equal Opportunity Employer.
