

MECHANICAL ENGINEER

Prairie Engineers is the place to be for Engineers looking to grow and excel!

Join a collaborative team that fuels your growth and rewards your dedication. We're a team looking to make a lasting impact and want people who embrace challenges, drive change, and help shape our collective future. If that's you, let's connect!

Prairie Engineers is a growing and progressive business. You will find opportunities for career advancement, a diverse range of clients, and varied projects across the nation. We value a people-focused culture, a "can-do" attitude, and responsiveness. You can expect mentoring and guidance from us as part of your professional development. We offer remote, hybrid, and office work environments with competitive salaries and benefits. As part of our [award-winning](#) company, we will work with you to achieve career success!

What you will Do:

Plan, design, and construction administration of HVAC, chilled/hot water, plumbing, and fire protection systems for military and institutional facilities

Oversee project construction from start through completion

Maintain focus on timely project delivery and superior client service with attention to detail and deadlines

Salary range \$75,000-\$150,000 determined by education, experience, licensure, and KSAs of the applicant, as well as internal and external equity.

What you Need:

Education: Bachelor's degree in Mechanical Engineering

Experience: Minimum 5 years' previous engineering experience

Licensure: Current Professional Engineer in Illinois or the ability to obtain within the first 6 months of employment

Software: Proficiency with AutoCAD, Revit, and Microsoft Office Suite

How you Align:

People Focused: Professional, respectful, and team-oriented, with a strong work ethic and the ability to collaborate internally and externally

Can Do Attitude: Positively engages with challenges, facilitates problem-solving, and takes initiative to deliver solutions

Responsive: Communicates openly, proactively, and promptly, with excellent verbal and written communication skills

Check out the Careers page at prairieengineers.com for details on the generous benefits package available, including 401(k), medical insurance, bonus program, and to find out why employees chose to join our team.

Prairie Engineers is an equal opportunity employer that recognizes the value of diversity. All qualified individuals will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, sexual orientation, or gender identity), national origin, age (40 or older), disability, genetic information (including family medical history), or any other legally protected status.

Potential candidates for this position should **fill out the application form** found at prairieengineers.com and submit with cover letter and resume. We are interested in every qualified candidate who is authorized to work for any employer in the U.S. However, we are not able to sponsor visas for this position.
