

# Entry Level Quality Assurance Inspector for precision machined parts

**Compensation:** \$18 (entry level) to \$23 (2 years' experience) hourly

**Benefits Offered:** 401K, BCBS-IL Medical and Dental

**Employment Type:** Full-Time, first shift

**Why Work Here?:** "State of the art technology \* Clean modern facility \* Friendly team-oriented workplace" Seeking candidates to fill an entry level to some experience inspector position. We offer BCBS-IL medical insurance & dental insurance benefits, 9 paid holidays, 401K retirement plan, tuition reimbursement and other benefits.

Qualified candidates are required to have:

- Documentation to legally work in the USA.
- High school level education or GED
- Be able to communicate and follow instruction in English both verbal & written.
- 0-2 years' experience inspecting parts preferred.
- Basic blueprint reading is a plus.
- The ability to use calipers, micrometers, and other inspection equipment is a plus.
- The agility to stand, stoop, bend, pick and accurately place parts throughout the shift.

If you are the type of person who:

Strives to learn new things and continually improve themselves.

Appreciates the chance to learn from other highly experienced inspectors.

Then forward your resume including:

**Name of each employer and the dates you were employed.**

- Shifts you worked at each company.
- Type of inspection equipment used.
- Type of parts you have experience inspecting

**ROBERT C. WEISHEIT, CO.** IS a modern CNC machining facility, in business for 80 years, that machines parts to close tolerances for customers in the Defense industry.
