PLATINUM
PEST SOLUTIONS

Job Title: Field Technician – General Pest Department
Location: Platinum Pest Solutions – Lansing Il, Wisconsin
Job Type: Full-Time

Job Summary:

As a Field Technician in the General Pest Department at Platinum Pest Solutions, you will be responsible for providing high-quality pest control services to multi-family and commercial clients. Your role includes inspecting properties, identifying pest issues, implementing effective treatment plans, and educating customers on pest prevention. You will play a key role in ensuring customer satisfaction and maintaining the company's reputation for excellence.

Key Responsibilities:

- Conduct thorough inspections to identify pest infestations and determine treatment solutions.
- Apply pest control treatments safely and in compliance with company and regulatory standards.
- Educate customers on pest prevention and maintenance strategies.
- Maintain accurate service records and documentation.
- Follow safety protocols and use proper handling procedures for chemicals and equipment.
- Communicate effectively with customers to address concerns and provide recommendations.
- Maintain and clean company-provided equipment and vehicles.
- Stay updated on industry best practices, new treatment methods, and regulations.

Qualifications & Skills:

- High school diploma or equivalent.
- Pest control certification and licensing (as required by state regulations).
- Previous experience in pest control or related field preferred but not required.
- Strong problem-solving and communication skills.
- Ability to work independently and manage a service route effectively.
- Physical capability to lift equipment, work in various environments, and handle treatments.
- Valid driver's license with a clean driving record.

Pest Control Technician Benefits:

- Full time
- Monday-Friday with occasional opportunities for Saturday overtime
- Opportunities for commission
- Company Phone
